Temporary Utility Surcharge Implementation

Dear valued customer

Recently, as you may know, there has been a drastic growth in the electricity and gas prices and Estonia is no exception. This has resulted in significant impact on utility fees we are covering during upkeep of the Hangar facility and requires our action. While waiting for more stable energy market situation and government to take regulative actions we have decided to temporarily implement utility fees surcharge. The general aim is to balance the upkeep costs during the peak period of energy market and not to implement revised pricing for the hangar itself.

Utility fees surcharge:

Implementation period: **04.02.2022 – 30.04.2022.**

Surcharge rate: **15% from prices stated above.**

Thank you for understanding!

PANAVIATIC Handling Team
